

Name :	URVASHI SHUKLA GOPAL SHANKAR SHUKLA	Lab ID :	3000021237792
MRN :	30000-280169	Sample No :	SCM99854
DOB / Gender :	12-07-1994 / Female	Emirates ID :	784199471318610
Client Name :	STAR CARE MEDICAL	Reg Date :	19-11-2021 20:27:00
Passport NO :		Collection Date :	19-11-2021 18:18:00
Nationality :	India	Reporting Date :	20-11-2021 02:27:48

Molecular Biology

Test	Result	Reference Range	Methodology
COVID-19 by RT-PCR *	Not Detected (Negative)	Not Detected	Multiplex Real Time PCR
Sample Type: <i>Nasopharyngeal / Oropharyngeal Swab</i>			
Interpretation Notes :			
Result	Interpretation and Recommendations		
Detected	If the result is detected, that means the sample is positive for SARS-CoV-2/Covid-19		
Not Detected	If the result is not detected, that means the sample is negative for SARS-CoV-2/Covid-19.		
Presumptive Positive	Only one of the multiple genes is detected or a low viral load is possible. Request for repeat sample in 72-96 hours.		
The false-negative result with clinical symptoms may be caused by			
. Unsuitable collection, handling, and/or storage of samples.			
. Sample outside of the viremic phase.			
We recommend repeating testing on a fresh sample			
LIMITATION OF THE TEST			
. This assay has been validated for use with an oropharyngeal swab and nasopharyngeal swab samples only.			
. This assay only detects RdRp, N gene, and E gene.			
. This test cannot rule out diseases caused by other pathogens.
